

FIRSTCALL[®] Medical Monitoring

Constant Care Even When You're Not There

With FIRSTCALL help is available at the push of a button.

Living alone can be an uneasy situation, especially for elderly individuals living with medical difficulties. FIRSTCALL Medical Monitoring service is a simple, cost-effective solution that allows individuals the satisfaction of independent living with the peace-of-mind that comes in knowing there's always someone to help.

Be like thousands of other American seniors who enjoy an independent lifestyle with the help of an emergency system at your fingertips. This simple to use, yet sophisticated emergency alarm and notification system lets you live the life you choose to lead.

Peace-of-mind

The heart of FIRSTCALL, our advanced telephone system, features the most sophisticated 2-way voice technology available. Its superior speaker clarity, range and built-in battery back-up make it a secure, effective link to Cooperative Response Center's (CRC) 24-hour response center.

An emergency response transmitter can be worn at all times, indoors or out. If a situation arises and help is needed, a simple touch of a button activates the phone's speaker system and contacts the response center.

Pricing

Install Fee* \$50

*One-time fee

Monitoring \$22.50/month
