Keep My Electric Bill Affordable—Support ROFR

Date: ___/___/2025

Dear Representative _____,

As a member of my electric cooperative and your constituent, please support the Right of First Refusal (ROFR) legislation. State oversight and bidding requirements ensure that projects will be both necessary and cost effective. When my co-op's transmission provider is a project partner, I benefit from their participation. Investment returns will be shared with my not-for-profit co-op to keep my electric rates lower when transmission lines are built.
