							1,578 kWh @ -0.09	\$142.02 CR	
							Power Cost Adjustment		
							1,055 kWh @ -0.008464	\$8.93 CR	
							WI Non-Taxable Program @ 3.00%	\$1.50	
							Current Electric Charges	\$30.48 CR	
							Total Electric Charges	\$30.48 CR	
							Total Amount Due	\$30.48 CR	

Information

Our office will be closed May 26th for Memorial Day and June 5th for employee training. To report a power outage, call (855) 957-3881 or report the outage through your SmartHub account.

Please see reverse side for usage history graph.

Information

Our office will be closed May 26th for Memorial Day and June 5th for employee training. To report a power outage, call (855) 957-3881 or report the outage through your SmartHub account.

Detail of Charges Explained:

Facility Charge - All members pay a facility charge, which supports the costs of our truck, equipment, poles, wires, transformers, labor to build and maintain the lines, cost of insurance, interest, taxes, and more.

Residential Service - This is the amount of energy, or kilowatts (kWh), you consume from ACEC's system.

Renewable Generation Credit - This is the excess energy that exceeds usage at the time it is generated. It is the amount of energy you put onto our system.

Power Cost Adjustment - This is a per kWh charge on your bill that covers the costs that vary month to month in the generation of electricity.

Wisconsin Non-Taxable Program - This monthly fee is required under state of Wisconsin legislation. The fees are aimed at improving energy conservation and providing low income energy assistance.

To learn more about installing a distributed energy resource on ACEC's system, visit www.acecwi.com/connecting-der-systems.
