RATE CODE DESCRIPTIONS

Type	*Rate Code*	*Description*
Residential	21	Single-phase service for full-time residential use with maximum demand less than 40kW.
Residential TOD	T1	Single-phase time-of-day (TOD) service for full-time residential use.
Residential Second Meter	SMS	Second-meter service
Residential Second Meter TOD	SMS (TOD)	Second-meter for time-of-day (TOD) service
General Service	42	Single-phase service for non-full-time residential service (second homes, cottages, including sheds, garages, outbuildings, and camper services with maximum demand less than 40kW.
General Service TOD	T2	Single-phase time-of-day (TOD) service for non-full-time residential service (second homes, cottages, including sheds, garages, outbuildings, and camper services) with maximum demand less than 40kW.
Dairy Farm	DF	Single or three-phase service for dairy farm accounts with maximum demand less than 40kW.
Small Commercial	23	Single-phase service for commercial accounts with maximum demand less than 40kW. (convenience stores, small businesses, county parks, campgrounds, billboards, town halls, churches, stock waterers, grain dryers and irrigation pivot-only)
Small Commercial (TOD)	T3	Single-phase time-of-day (TOD) service for commercial accounts with maximum demand less than 40kW. Includes services like convenience stores, small businesses, county parks, campgrounds, billboards, grain dryers and irrigation pivot-only.
Commercial	34	Three-phase service for commercial accounts with maximum demand less than 40 kW
Large Power	63	Single-phase service for large commercial services with maximum demand of 40kW or more.
Large Power	64	Three-phase electric service for large commercial services with maximum demand of 40kW or more.
Large Power (TOD)	EBR	Single and three-phase non-irrigation time-of-day (TOD) service with maximum demand of 40kW or more.
Industrial	Various	Three-phase service for industrial services requiring transformer capacity of 1000 kVA or more.
Irrigation	MC6	Coincident demand billed irrigation service for farm irrigation pumps of 15 HP and greater.

Type	*Rate Code*	*Description*
Irrigation	NC6	Irrigation service for non-farm irrigation pumps of 15 HP and greater.
Irrigation	T6	Irrigation time-of-day service for farm irrigation pumps of 15HP and greater.
Irrigation	TC6	Irrigation time-of-day service for Non-Farm irrigation pumps of 15HP and greater.
Yard Light	YL	Available to all members for lighting yards and other areas.
Street Light	SL	Available to Townships, unincorporated municipalities and select members for lighting of streets, parking lots, etc.
Renewable Generation Rate (WP&L Rider)	RGX	Available to all members with qualified renewable energy conversion system facilities with nameplate capacity greater than 100kW connected in parallel with the Cooperative's electric system.
Renewable Generation Rate Rider	RG121, RG123 RG142, RG134, RG164	Available to members with qualified renewable energy conversion system facilities with name plate capacity 100 kw or less connected in parallel with the Cooperative's electric system.

RATE SCHEDULE AVAILABILITY & DISCLAIMER

The availability of a Rate Schedule for a member is based on the member meeting qualifications of the availability clause and other terms of the Rate Schedule. Rate Schedules are available upon request; The member may be eligible to take service under more than one rate.

By request, the Cooperative will advise the member in the selection of the rate that will give them the lowest cost of service based on information provided to the Cooperative; After the rate has been established, or when the type or capacity of service(s) needed requires a change to another rate, the member will not be permitted to change from that rate to another until at least 12 months have elapsed. An exception to this elapsed time requirement will be made if the service no longer meets the availability clause of the Rate Schedule. Additionally, it is the responsibility of the members to notify the Cooperative of any change that affects the rate or charge for service. No refund will be made of the difference in charges under different rates applicable to the same class of service.

(Source – ACEC Service Rules and Regulations)

Adams-Columbia Electric Cooperative provides Internet access to our rate schedules for the convenience of our membership. While we strive to keep these documents up to date, please note that the rate schedules and details included therein are subject to change at the discretion of the Cooperative's board of directors. Users should note that the schedules provided on this web site are not the official documents and users assume responsibility for reliance upon rate schedules in electronic format. Please contact the Cooperative with any questions you may have.

Adams-Columbia Electric Cooperative
Friendship, WI
Rate Codes: 21, 23, 42
Rate Schedule: GS
Effective: 1/1/2025

GENERAL SINGLE-PHASE, FARM & RESIDENTIAL SERVICE

Availability:
Available to all single-phase accounts whose measured maximum demand for eleven (11) of the past twelve (12) months has been less than 40 kW. Service is subject to the established rules and regulations of the Cooperative.

Type of Service:
Single-phase, 60 cycles at available secondary voltages.

Rate:

Charge Type	Rate
Facility Charge	$1.25 per day
Energy Charge	All energy @ 13.5¢ per kWh

Minimum Bill:
The specified facility charge.

Power Cost Adjustment (PCA)
Any adjustment in the Cooperative's energy cost per kilowatt-hour in accordance with changes in the Cooperative's wholesale power cost will be added to or deducted from the member's current bill for electric service as appropriate.

Determination of Demand:
The billing demand for the month shall be the maximum recorded hourly demand in kilowatts.

Terms of Payment:
The above rates are net. Bills not paid by the due date are subject to a late payment charge of the unpaid balance in accordance with the Cooperative's Service Rules & Regulations.

Taxes and Fees:
The State of Wisconsin, County and local sales taxes, Non-Taxable Program Fees, and any other legislative or regulatory fees imposed by governmental agencies will be applied to each billing for electric services as applicable.

Other Charges:
Additional charges may be added to the Facility Charge for members requiring easement payments, line crossing charges, insurance charges or any other charge that a member may impose on the Cooperative. These fees will be prorated to a monthly basis and added to the basic Facility Charge.

Adams-Columbia Electric Cooperative
Friendship, WI
Rate Codes: T1, T2, T3
Rate Schedule: GS-TOD
Effective: 1/1/2025

GENERAL SERVICE TIME-OF-DAY (TOD)

Availability:
Available to members for all single-phase uses whose measured maximum demands for eleven (11) of the past twelve (12) months has been less than 40 kW. Service is subject to the established rules and regulations of the Cooperative.

Type of Service:
Single Phase, 60 cycles at available secondary voltages.

Rate:

Charge Type	**Rate**
Facility Charge	$1.25 per day
Energy Charge — On-Peak	39.6¢ per kWh
Energy Charge — Mid-Peak	9.2¢ per kWh
Energy Charge — Off-Peak	5.3¢ per kWh

Period	**Dates**	**Hours**	**Days**
On-Peak	October 1 – January 31	5:00 p.m. to 8:00 p.m.	Monday through Friday, except Holidays
On-Peak	February 1 – April 30	7:00 a.m. to 11:00 a.m.	Monday through Friday, except Holidays
On-Peak	May 1 – September 30	12:00 p.m. to 6:00 p.m.	Monday through Friday, except Holidays
Mid-Peak	All other hours	All other hours	All days
Off-Peak	All days	12:00 a.m. to 6:00 a.m.	All days

Minimum Bill:
The specified facility charge.

Power Cost Adjustment (PCA):
Any adjustment in the Cooperative's energy cost per kilowatt-hour in accordance with changes in the Cooperative's wholesale power cost will be added to or deducted from the member's current bill for electric service as appropriate.

Determination of Demand:
The billing demand for the month shall be the maximum recorded hourly demand in kilowatts.

Effective: 1/1/2025

LARGE POWER SERVICE

Availability:
For all single and three-phase non-irrigation services;

A. Whose measured maximum demands for two (2) or more of the past twelve (12) months has been equal to or greater than 40 kW.

B. New accounts whose measured demands are estimated to be 40 kW or more shall be placed on this rate until we have twelve (12) months of historical measured demand readings.

C. For accounts that have twelve (12) consecutive months where the measured maximum demand is less than 40 kW the Cooperative may transfer the account to the GS or PS rate, whichever is appropriate.

D. This rate is available to any single- or three-phase non-irrigation account of less than 40 kW peak demand, at the member's request.

E. This rate is not available to accounts requiring 1000 kVA or more of transformer capacity.

F. Service is subject to the established rules and regulations of the Cooperative.

Type of Service:
Single-phase and three-phase, 60 cycles at available secondary voltage

Rate:

Charge Type	**Rate**
Facility Charge	$80.00 per month
Max Demand Charge	$25.88 per kW maximum demand
Energy Charge	All energy @ 3.5¢ per kWh

Power Factor Charge:
Any reactive energy charges would be passed through from the wholesale power supplier and/or transmission provider.

Minimum Charge:
The specified facility charge.

Determination of Demand:
The billing demand for the month shall be the maximum recorded hourly demand in kilowatts.

Power Cost Adjustment (PCA):
Any adjustment in the Cooperative's energy cost per kilowatt-hour in accordance with changes in the Cooperative's wholesale power cost will be added to or deducted from the member's current bill for electric service as appropriate.

LARGE POWER SERVICE (OVER 1000 KVA)

Availability:
Available to all three-phase accounts requiring a combined 1,000 kVA or more of transformer capacity located within a contiguous property boundary owned or leased by the same member account. Service is subject to the established rules and regulations of the Cooperative.

Type of Service:
Three-phase, 60 cycles at available secondary voltage

Rate:

Charge Type	Rate / Details
Facility Charge	$750.00 per month for the first meter. Each additional metered service is $40.00 per month.
Coincident Peak (CP) Demand Charge	$38.58 per kW per month, measured at the time of ACEC's power supply coincident peak.
Max Demand Charge	$5.00 per kW maximum demand per month.
Interruptible Demand Charge	$31.98 (special contract required)
Energy Charge — On-Peak	All kWh @ 3.7¢ per kWh
Energy Charge — Off-Peak	All kWh @ 2.8¢ per kWh

Period	Details
On-Peak Period	8:00 a.m. – 10:00 p.m., Monday–Friday, except Holidays
Off-Peak Period	All other hours

Power Factor Charge:
Any reactive energy charges would be passed through from the wholesale power supplier and/or transmission provider.

Minimum Charge:
A. The specified facility charge.
B. The minimum annual charge shall be five (5) times the maximum demand charge during the year.

Determination of Demand:
The (CP) Coincident Peak billing demand for the month shall be the recorded hourly demand in kilowatts during the hour of ACEC's power supply coincident peak and the Max demand portion of the billing shall be the maximum kilowatt hour demand during the month for which the bill is rendered, as indicated, or recorded by a demand meter.

Power Cost Adjustment (PCA):
Any adjustment in the Cooperative's energy cost per kilowatt-hour, in accordance with changes in the Cooperative's wholesale power cost, will be added to or deducted from the member's current bill for electric service as appropriate.

LARGE POWER SERVICE (OVER 1000 KVA) (continued)

Terms of Payment:
The above rates are net. Bills not paid by the due date are subject to a late payment charge on the unpaid balance in accordance with the Cooperative's Service Rules & Regulations.

Taxes and Fees:
The State of Wisconsin, County and local sales taxes, Non-Taxable Program Fees, and any other legislative or regulatory fees imposed by governmental agencies will be applied to each billing for electric services as applicable.

Other Charges:
Additional charges may be added to the Facility Charge for members requiring easement payments, line crossing charges, insurance charges or any other charge that a member may impose on the Cooperative. These fees will be prorated to a monthly basis and added to the Basic Facility Charge.

Friendship, WI
Rate Codes: EBR
Rate Schedule: LP-TOD
Effective: 1/1/2025

LARGE POWER SERVICE-TIME-OF-DAY (TOD)

Availability:
For all single and three-phase non-irrigation accounts requesting a Time-of-Day rate:

A. Whose measured maximum demands for two (2) or more of the past twelve (12) months has been equal to or greater than 40 kW.

B. New accounts whose measured demands are estimated to be 40 kW or more shall be placed on this rate until twelve (12) months of historical measured demand readings are available.

C. For accounts that have twelve (12) consecutive months where the measured maximum demand is less than 40 kW the Cooperative may transfer the account to the GS or PS rate, whichever is appropriate.

D. This rate is not available to accounts requiring 1000 kVA or more of transformer capacity.

E. Service is subject to the established rules and regulations of the Cooperative.

Type of Service:
Single-phase and three-phase 60 cycles at available secondary voltage

Rate:

Charge Type	**Rate / Details**
Facility Charge	$80.00 per month
Max Demand Charge — On-Peak	$25.88 per kW per month
Max Demand Charge — Off-Peak	$7.50 per kW per month
Energy Charge — On-Peak	All kWh @ 3.7¢ per kWh
Energy Charge — Off-Peak	All kWh @ 3.1¢ per kWh

Period	**Details**
On-Peak Period	November 1–April 30: 5pm–8pm; May 1–October 31: 10am–8pm; Monday through Friday, except Holidays
Off-Peak Period	All other hours

Power Factor Charge:
Any reactive energy charges would be passed through from the wholesale power supplier and/or transmission provider.

Minimum Charge:
The specified facility charge.

LARGE POWER SERVICE-TIME-OF-DAY (TOD) (continued)

Determination of Demand:
This shall be the maximum kilowatt demand established for any hour recorded during the established on-peak period and off-peak period during the month for which the bill is rendered, as indicated or recorded by a time-of-day demand meter.

Power Cost Adjustment (PCA):
Any adjustment in the Cooperative's energy cost per kilowatt-hour, in accordance with changes in the Cooperative's wholesale power cost, will be added to or deducted from the member's current bill for electric service as appropriate.

Terms of Payment:
The above rates are net. Bills not paid by the due date are subject to a late payment charge on the unpaid balance in accordance with the Cooperative's Service Rules & Regulations.

RENEWABLE GENERATION RATE (WP&L Rider)

Availability:
Available to all members with qualified renewable energy conversion system facilities with nameplate capacity greater than 100kW connected in parallel with the Cooperative's electric system.

Type of Service:
Alternating current, 60 Hertz at available voltages and standards of the Cooperative.

Monthly Sales Rate:
The facility charge and energy rate for sales to the member shall be in accordance with the rate schedule applicable to the class of service provided.

Monthly Generation Rate:
The following rate shall apply any time the member generates energy:

Description	**Rate / Details**
Energy Credit (payment to member)	Rate determined in Wisconsin Power and Light Company's W-2A Rate Schedule.

The W-2A Rate Schedule is based on the locational marginal price of electric energy at the time of the purchase in the American Transmission Company (ATC) pricing zone of the Midcontinent Independent System Operator (MISO).

Description	**Rate / Details**
Energy Credit (payment to member)	For electricity received from member shall be equal to the energy credit received from Cooperative's power supplier for qualified members.
Demand/Capacity Credit (payment to member)	For quantities received from member shall be equal to the demand/capacity credit received from Cooperative's power supplier for qualified members.

Other Charges:
Any interconnection and special metering costs above the standard for the appropriate rate schedule applicable to the class of service provided will be charged to the member.

Terms of Payment:
Payment of the fixed charge and for electric service provided to the Member shall be made in accordance with the applicable rate schedule for the class of service received. Compensation to the Member for energy supplied to the Cooperative will be issued as a bill credit each month. A check may be issued in the instance of a large credit balance in accordance with Cooperative practice. The Cooperative reserves the right to apply such payments as credit against any outstanding or past-due balances owed by the Member.

Taxes and Fees:
The State of Wisconsin, County and local sales tax, Non-Taxable Program Fees, and any other legislative or regulatory fees imposed by governmental agencies will be applied to each billing for electric service as applicable.
